

## Healthy Food with a Healthy Community- Covid 19 Precautions

The Red Hills Small Farm Alliance is so excited to bring back its premier community event and fundraiser, The Tomato Festival. This event has been a longtime tradition of the Alliance and we are grateful to be able to celebrate together again.

As we navigate our way through the reopening of activities, we are asking that all Festival patrons be responsible for their own health and respectful of others to ensure everyone feels safe and comfortable.

The good news is that most of the event activities will be outdoors.

**While outdoors**, we ask that participants who are not vaccinated keep socially distanced from people who are not part of your party and wear a mask. We will have raffle activities in the Jubilee cottage.

**While indoors**, we ask that **all** participants keep socially distanced from people who are not part of your party or wear a mask.

With many of our community now vaccinated along with the latest CDC guidelines, if you see a staff person, vendor or volunteer without a mask, you can be assured that they are fully vaccinated.

Looking forward to seeing everyone and celebrating being together again!
